NSAF Athlete Travel Grants

\$3,300,000

Provided by NSAF since 1990

The NSAF manages a vigorous grant program that enables high school athletes to compete at meets around the country, including the USATF U-20 Outdoor Championships.

Cedric Walker & Tony Wells Development Grants

Since 2013, the NSAF has awarded funds through the Cedric Walker and Tony Wells Development Grants based on demonstrated need to high school and youth programs. These development grants have helped track and field teams and clubs defray expenses, enable coaches education, and purchase equipment and uniforms.

NB Nationals, Great American XC Festival & HBCU Challenge

The NSAF hosts four major meets per year: The New Balance Nationals Indoor & Outdoor Championships and the Great American Cross Country Festival and Cedric Walker HBCU Challenge. The NBN meets draw over 11,000 athletes annually and are the premier showcases for the country's top track and field student-athletes. Athletes have set 165 high school records at these meets. The GAXC Festival and HBCU Challenge are co-current mid-season cross country competitions that attract more than 3,000 athletes total.

Team NSAF International Competition

The NSAF launched the Caribbean Scholastic Invitational (CSI) in Puerto Rico in 2006, each year carefully selecting top prep athletes who have demonstrated talent that could qualify for Junior and Senior U.S. teams, for exposure to international competition. Since 2015, we've had the opportunity to bring these teams to Cuba for the Barrientos Memorial. To date, athletes who competed on Team NSAF have earned 171 medals for Team USA, including 93 gold, 52 silver and 26 bronze. With this program's success, the NSAF has also sent teams to the Reykjavik International Games in Iceland (2019-20) and is launching a Team NSAF trip to Norway this year.
